HEY!!!

If you missed the last meeting, you missed the R-Time8 and other goodies donated to the Club by Alfred Schwarz. Shame on you.... (you did not miss the Chipmunk and MonkeyWrench II because I left them in my other pile - oops!) So, you can still take advantage of Al's generosity - in fact, we still have a TON of 8-bit stuff for sale and raffle!

Like an Indus drive in perfect condition with all the accessories.

Bring the rent! Don't miss out again!!

Minutes & Stuff

The June meeting started out with its usual bang, President Robbie Bridges was on time and the meeting was also - 8 PM exactly. Robbie started out with a question and answer period where there were many questions and of course he had no answers (as usual). Also, as usual, only the important Officer (the Secretary) was in attendance. The Vice showed up about 8:30, which is not too bad considering he uses one of those funny AMD 133 things that run at about 50 MHz. Last report was that he had been looking for the other 83. Last, but not least, the Treasurer - well as you know he also has an AMD 133 and he heard that Intel was selling 83 mhz chips, so he was in Sunnyvale trying to con them out of one, to get his AMD up to speed.

Robbie mentioned there were two 1040 ST systems for sale. Anyone looking to make a good deal should contact him. There followed a discussion of the many donations that have been made to the club. The raffle prizes were reviewed and thanks given to those who donated them.

Next came the big thrill of the year, the annual election of Officers. Seeing as there was such a big slate this year, Robbie decided that it would take too long to count the ballots so he declared all the nominees ineligible and reinstated the existing Officers and declared them elected.

Software Chairman, Bob Scholar, demonstrated this months 8 Bit Floppy with his usual flare. There are three very good games on the disk and the latest update to the PrintStar program. (The 32nd upgrade I believe) The back of the disk is devoted to animated movie files.

Being no further business the meeting was adjourned at 9:30 PM

Stuff

With the release of the K6 and then the M2 CPU chips, it looked like Intel might have a real sales battle on its hands. But, with a smile Intel decided that they could get by with only a 30% markup instead of 60% and announced huge cuts in many of their chip prices. Tough business! Other tough business seems to be the disk drive business. JTS (Nee Atari) is having a fire sale on their stock. .88 Cents each. (Want some?)
